Canon EOS

FULL HD 1080

Canon is HD. CANON DSLRs featuring FULL HD VIDEO RECORDING

The EOS 5D Mark II, 7D Rebel T1i and T2i offer recording of Full HD 1080p video in Live View Mode. And the advantages move way beyond the ability to shoot on your SLR—the wealth of high-speed lenses and shooting accessories that make EOS photography so remarkable can also be used in shooting video. To see the HD video and photos on your HDTV directly from the camera, simply connect the camera and TV with a mini-HDMI cable.

DIGIC 4 Image Processor
DIGIC 4 is Canon's most advanced image processor ever. Images have brilliant colour and smoother gradations, and performance is fast and responsive.

Smart AUTO
Detects faces, brightness, colour, distance and movement, then automatically selects the best of up to 28 settings for improved image quality

Motion Detection Technology
Uses changes in scene information to accurately identify subject motion, minimizing blur and maximizing image quality.

Face Detection
The technology finds the face(s) in the frame and gives them optimal focus, exposure, white balance and flash.

IMAGE EFFECTS
Have fun creating distorted, "fisheye" photos of your friends, or enchanting "miniature" model landscapes and objects

Cool new products, photography tips and tricks are available on Henry's YouTube Channel www.youtube.com/henryscameras

Quantities limited. Prices and offers valid from October 20 to November 7, 2010 unless otherwise stated, for in stock items only. Prices subject to change without notice. Errors and omissions excepted. See back page for details on the Henry's Advantage Card payment plans.
